PRIMARY FINANCIAL STATEMENTS

Preparers roundtable

Online joint outreach event focused on the application of the IASB proposals with insights of the field testing of the Primary Financial Statements proposals organised by EFRAG and Business Europe, in cooperation with the IASB.

Tuesday 1 September 2020 – 9:30 to 12:30 CET

[Online Public webinar](#)

EFRAG, Business Europe and the IASB invite you to a webinar to discuss the application of the IASB proposals for preparers and the experiences of the field testing of the IASB Exposure Draft *General Presentation and Disclosures* (Primary Financial Statements).

The objective of the event is to collect input from the community of interested preparers that were unable to participate in the field-tests organised by EFRAG.

The insights of the field testing will be presented and discussed with a panel of preparers.

The audience will be able to contribute to the discussion through polling surveys and Q&A sessions.

We are looking forward to receiving a wide range of views on the application of the IASB proposals for preparers and on the results of the field testing, contributing to the debate on primary financial statements.

You may already register for the event [here](#).
